

## EDGERTON FARMER COMMITTS SUICIDE WITH SHOT GUN

After having on several occasions expressed his intention of destroying himself, Mr. Ivor Olsen residing on his farm some seven miles south-west of Edgerton committed the dastardly deed with a 12-gauge shot gun on Thursday last.

He had been noticed to be strange in his behaviour for some time past and on the day in question he went into the barnyard and leaning his double-barrelled shotgun on a hay rack fixed up a "pull" with some binder twine which he placed around an upright of the rack and then fastened to the trigger of the weapon.

It is presumed that the deceased must have deliberately held the muzzle of the gun to the side of his head and pulled on the binder twine with his free hand, this resulting in so great a tragedy that his head was literally blown off, portions of his skull being found on a nearby straw stack.

Information was at once given to the A.P.P. and Coroner Dr. Wallace at once left for the scene. After viewing the body and gathering details it was decided that an inquest was unnecessary, the deed being a deliberate suicide during mental aberration.

The late Mr. Olsen was an old-timer in the Edgerton district and was highly respected by all who knew him. He was the owner of a large piece of land and also possessed over 60 head of stock. He leaves a widow and two children.

The best Spring tonic for horses, cattle, pigs, poultry, etc., is International Stock Food from the Wainwright Pharmacy.

## "MAN OF STONE" EASTERN MYSTERY PLAY AT ELITE

The mysterious spirit of the East comes to the Elite theatre next Friday and Saturday when the big new Selznick spectacle, "The Man of Stone," opens with Conway Tearle playing the Man. Capt. Neville Deering, D. S. C., of the British army finds that during a short absence from England, his fiancée Mary, Lady Fortescue, has jilted him. Stung with mortification, he accepts active service in British Arabia among the Colonials who are at that time engaged in quelling an insurrection among the natives. Life in the East soon lays its mystic fingers on the brooding temperament of this Britisher and he succumbs to the temptations that surround him, drinking and indulging in the wild life of the fast cosmopolitan set which attaches itself to army posts.

He is attracted to a beautiful and accomplished Arabian girl who eventually wins his love. Lady Fortescue, realizing her mistake, arrives in Arabia determined to follow Deering and regain his lost affection. Of course the women meet. The situation is heightened but the end serves to bring about a very natural and dramatic denouement.

While the story is simple, it is told with directness and broad vivid strokes, and colored with the gay and variegated pigments of the Orient. And the characterization of Mr. Tearle makes the man being loved passionately by two women.

Betty Howe as the Arabian girl Laila, and Martha Mansfield as the British noblewoman are excellent in their respective roles.

## LOCAL BANK BECOMES BRANCH OF BANK OF MONTREAL TO-DAY

Our local bank to-day becomes a branch of the Bank of Montreal. An official telegraphic communication to this effect having been received by the local staff.

A lengthy article appeared in last issue giving an insight into the history of the Bank of Montreal. It is a matter of no little importance that our local bank is linked up with such a strong institution.

## ALARM OF FIRE AT PARK HOTEL WEDNESDAY LAST

On Wednesday last an alarm of fire was rung in from the Park hotel, and when the fire ladders got to the premises it was found that a smart little conflagration was merily blazing between the back doors of the premises. The application of the chemical hose soon put things in good order again, although it was lucky that the outbreak was discovered in its incipient stages.

The funny part of it is that both doors have been securely fastened (the inside one locked and the storm door nailed up) all winter, and what could have started the fire is a complete mystery.

## IN THE LEGISLATURE

Considerable interest during the week centered in the liquor amendments introduced by Hon. Mr. Brownlee, providing means for stricter enforcement of the liquor act. These amendments were passed on Thursday. R. C. Edwards, Calgary, introduced an amendment to provide for a plebiscite within a year, on sale of beer, but this was defeated by an overwhelming vote.

Provisions have been introduced into the wild lands tax act which will make it possible to remove from wild land taxation, lands found to be unfit for cultivation or pasturage. Enclosed land leased for grazing is also removed from the scope of the act.

The new institutions act, which puts all women's organizations on the same footing with respect to this branch of the agricultural department, has been passed by the house, after considerable debate. During the week a bill providing for the new taxes proposed by the government was introduced.

A new married woman's act has been introduced giving a married woman the same property rights and responsibilities as an unmarried woman. Amendments to the school assessment ordinance will provide that school assessments will be made in future on the basis of the equalized assessment in municipalities, instead of on the former system of acreage basis.

## LOCAL NOTES

To the Wainwright Studio goes the honor of being the first power user coupled up to the plant, their motors merrily humming on Monday last.

After many delays occasioned by various unavoidable circumstances the series street lighting system is now being installed.

We are glad to know that Mr. Job James who has been suffering from pneumonia is now some better.

## VALUE OF WEEKLY NEWSPAPER ADVTG. FULLY RECOGNIZED

In view of the elimination of all cream-buying stations throughout the province on the 1st of May as provided for by special legislation passed by the Alberta legislature last week, the Swift Canadian Company is making use of our advertising columns during the next few weeks in order to call attention to their exceptional facilities for handling direct cream shipments. Backed by very large financial resources, and manufacturing butter on a big scale, the company is in a position to pay the very highest prices for cream on an absolutely cash basis. During the past few years the cream-buying business of the Swift Co. has increased to a phenomenal extent, and the new publicity plans of the company ensure that increase will be maintained in an even greater ratio in the future. This is the first time in the history of the company that the weekly newspapers of Alberta have been used for advertising purposes and this fact is a tribute to the growing power of the weekly newspaper as an advertising medium.

## AUTO DRIVERS, WHO DRINK TOO MUCH, BEWARE!

Whether on-city streets or country highways intoxicated persons who have charge of a motor vehicle are liable to have their car seized by the authorities and impounded up to fourteen days for the first offence, and up to six months for the second conviction.

This amendment was incorporated in the motor vehicle act when the bill was before the legislature. The original clause respecting the impounding of cars did not provide for its application on rural roads and protests from rural members had the effect of government changes to this end.

The bill was finally reported from committee, there being other changes respecting the definition of chauffeur, so that regular employees of automobile dealers would not require special licenses as the first amendment would have necessitated.

## THE EXAMINER'S WEEKLY REVIEW OF PROVINCIAL MARKETS

(Thursday, March 23, 1922.)

### CATTLE

Beef—Prices at Edmonton at steady, but the trade is slow and unfinished steers are holding the market down on anything but best steers; choice heavy steers and choice butchers are selling at \$6.00 to \$6.50; medium, \$5.50 to \$6.00; common, \$5.00 to \$5.50; choice cows, \$4.50 to \$5.00; good \$3.50 to \$4.00; medium, \$3.00 to \$3.50; common, \$2.50 to \$3.00; canners \$1.25 to \$1.75. Choice heifers will bring half a dollar over cows. Choice veal calves are \$7.00 to \$7.50 and a few at \$8; common \$5.00 to \$6.00. Not many oxen or bulls, with the best of latter \$2.50 to \$3.00. Feeders and Stockers—Shipments of good feeders to the Calgary market, American points, best \$3.50 to \$4.00; stocker steers, \$3.00 to \$3.50; stocker heifers, \$2.50 to \$3.00; stocker cows, \$1.75 to \$2.50. Receipts larger this week.

### HOGS

Buyers at Edmonton have been raising their bids, following outside advances, and Wednesday's sales were \$11.50 to \$11.75. Receipts larger.

### SHEEP

Edmonton prices on lambs higher, with quotation \$9.00 to \$10.00; ewes \$4.50 to \$5.00; wethers, \$7.00 to \$8.00. Receipts light.

### PRODUCE

Sufficient local eggs now coming in to supply market and price dropped to \$6.50; quality improving, but not suitable for storage. Cream—Prices unchanged, manufacturers making arrangements for direct shipments. Creamery Butter—Prices unchanged and market looks steady; no export surplus to be disposed of yet. Dairy Butter—Old stock cleaning up; dealers not encouraging shipment. Cheese—Alberta make, cleaning up well; prices from 20c to 23c. Poultry—Live shipment very light; storage stocks moving well.

### HAY

Demand not so active during present week; dealers buying from farmers at country points, \$18.00 to \$19.00 for upland and \$12.00 to \$13.00 for good upland. Some prices over this have been paid for immediate shipment cars, which were wanted badly. Get certificates and place orders in time to avoid getting caught in high-price pinch.

### FURS

Manufacturers not buying at present prices; and trying to reduce values; action in about a month will fix values for spring trading; muskrats looking like decline.

### HIDES

Market outlook bad, U.S. duty of 15 per cent, stops movement across line until shortage there causes advance.

**NOTICE TO FARMERS**—The Wainwright Realty Co. have been appointed local agents for the new Board Fire Insurance Company which is handling this business on the "Note" plan thus giving you the protection while leaving you the use of your money until your crop is harvested. Call and see us about this.

**SUBSCRIBE FOR THE STAR.**

## TOWNS ALONG G.T.P. DEMAND THAT GAS WELLS BE OPENED

A request that the government will amend the Public Utilities Act to provide that a board of commissioners may have power to revise rates at which gas may be supplied, despite rates set in franchises, was made to Attorney General Brownlee Tuesday when a deputation representing members of the U. F. A., town and village councils and other bodies from Tofteld, Holden, Ryley, Irma, Fabian, Viking and other points, interviewed the attorney-general on the delay in development of the large gas field to the east of the city.

C. G. Purvis, barrister, Viking, was spokesman of the delegation, which was introduced by Russell Love, M. L. A., Wainwright. He stated that the field now had nine wells completed, giving a good flow of gas, while wells at Grattan and Fabian were making good progress, making this one of the greatest oil and natural gas fields on the continent, yet through the trouble between the city of Edmonton and the Northern Alberta Development company, the district was no nearer than they were seven years ago, in securing gas for domestic use.

### Cost of Production

The city franchise calls for gas to be supplied at 25 cents, whereas the company claims that this price is below cost of production. The company asked the city to agree to an increased rate, which the city refused, and the city further refused to ask the utility commissioners to set the rate.

At their point, called by the delegation was that the franchise provided for, in case of a small supply of gas, in small towns and villages, that might be on the pipeline, were to be the sufferers and were to be excluded from receiving a supply under these conditions.

G. Clark director of the R. B. Stone Creek U. F. A., and H. Forbes, of the Ryley ratcatchers' association, also spoke, supporting the claims of the small centres and urging that the utilities board be given permission to set rates.

### Different in South

Hon. Mr. Brownlee, in reply to the request of the delegation was directly opposed to the requests that had reached the government from the south country, where the people had asked the government not to allow power to the utilities board to overrule rates set in franchises.

The government intended to go into the whole question of the powers to be given to the utilities board, and there probably would be a revision of the same, though he doubted if this could be undertaken in time to present any proposed amendments of the act at this session. In this event, however, the matter would be brought up at the short session to be held in November, and he promised the delegation that every consideration would be given to their request.

He fully agreed that it was a duty of the province to see that development of natural resources would be undertaken as speedily as possible, but unfortunately at the present time the government had no control over the leases.

The delegation later had a conference with the executive of the Edmonton Ratepayers' Association in regard to the resolution was in line with what the Edmonton Ratepayers' Association had been urging upon the government, and they will lend their support to the smaller centres in getting action by the government at this session of the Legislature and if an Act is brought down, development will be begun this summer. The opinion of the delegation is that the prospects of securing gas for fuel and light by next fall are very bright indeed—Edmonton Journal.

After several attempts with differing appliances, the fire hydrant at the corner of Main and Second has been freed of frost; this being only accomplished after a liberal dose of live steam to a depth of about eight feet. Probably next season someone will see that the pressure is shut off this line before the frost sets in, as the lack of this help in case of a big fire would cause serious trouble.

## SHARE YOUR DOLLAR AND BOOST YOUR TOWN

Everybody has a certain amount of civic pride—that sort of pride which helps make a town of a village and a city of a town. The growth of any community is dependent upon the support given its citizens. If we fail in our co-operation the city either stands still or retrogrades. If we uphold the town by sustaining it, wholeheartedly, we help ourselves and the community. Let us help our town. Let us buy at home—at least give the home merchants a first chance. Let us divide our dollars among our merchants and others who have the interests of the community at heart. Let us help them and they will help us to greater values—for increased volume means decreased costs. The town needs your support and you need the support of the town. Let's get together and share our prosperity.

## NEW TAXES TO BE IMPOSED BY PROV. GOVERNMENT

The new corporations taxes to be imposed by the Provincial Government, as announced in the budget speech of Premier Greenfield, may be summarized as follows:

Express Companies—\$500 against each office in 5,000 and over, \$100 for offices in towns of 1,500 and over, \$50 for offices in centers of less than 1,500, and \$10 for offices in any other place.

Fire and Life Insurance Companies—Two per cent, other insurance companies one per cent.

Grain Companies—Fifty dollars for each elevator or warehouse situated on railway lines or sidings, or which receives grain for storage before inspection.

Incorporated companies with capital exceeding \$20,000 will pay 40 cents per thousand instead of 20 cents as formerly.

The new taxes will become due June 30th this year, and thereafter on January 1st of each year. There will be no further tax on loan or trust companies.

The legislature will conclude its sessions this week after having been in session since February 2nd. Up till last Friday, a total of 95 bills had been introduced. At the session in 1921, a total of 97 bills were passed. Since Thursday last, three sessions a day have been held, in order to expedite business and conclude this week.

## LETTERS TO THE EDITOR

We are not responsible for opinions expressed by correspondents.

The Editor:

Dear Sir, In your issue of March 8th you published an item to the effect that Justice McCarthy rendered decision in my suit for divorce from Mrs. Bottaro and for damages against William Wakefield in their favour. For the benefit of my friends, and those of your readers who are interested, I wish to call attention to the following lines:

"Mr. Justice McCarthy dismissed the husband's action with costs and completely exonerated the wife and the co-respondent from the charges made against her by the husband." This statement is not only untrue but calculated to misrepresent me to the public.

As a matter of fact Justice McCarthy decided against me in my action simply on the grounds that the case against my wife and the co-respondent was not sufficiently proven; and in a summing up of the evidence occupying nine pages there is nothing to warrant the words "completely exonerated."

Having your statement that the item was published by you as received from your news agency, I can only state that your information departed from the actual personal character of such items; and that the sentence above quoted must have been, intended to damage me in the estimation of your readers. The whole matter is subject to appeal and may yet bear an entirely different appearance.

Thanking you for making this correction possible  
Yours truly,  
P. B. BOTTARO,

## PIONEER OF DISTRICT PASSES AWAY AT PRINCE RUPERT

The last issue of "The Terrace" (B.C. news) says:—"The death occurred on Tuesday night at the General Hospital at Prince Rupert of Olaf Walberg, of Terrace, at the age of 64 years. Death was due to injuries resulting from the kick of a horse, necessitating a serious operation, the effects from which he was unable to overcome.

Mr. Walberg came here from Wainwright, Alberta in 1920. He purchased some land adjoining the ferry bridge, and had built up a good home and cleared quite an area.

The funeral was in the hands of the B.C. Undertakers, interment taking place at Rupert.

The deceased who lived for some eleven years on 31-46-74, south of town, leaves to mourn the loss his widow and two daughters and five sons, two of whom—Fred and Eddie—are still resident here.

## DISCUSS CATTLE POLICY FOR ALL WEST

To form a policy for Western Canada, a conference is being held in Saskatoon, March 30. The gathering will be attended by members of the federal department of agriculture, the provincial departments of agriculture for the western provinces, representatives of the Western Livestock Union, the Canadian Council of Agriculture and the agriculture colleges of the prairie provinces.

The conference is also designed to provide for closer co-ordination of the work of the provincial and federal departments of agriculture and the agriculture colleges in carrying on and extending a common programme for the livestock industry. In view of the critical situation of the livestock industry of the west the conference is most important.

The Annual Meeting of the Wainwright Athletic Club will be held in the Council chamber at 8 p.m. when all interested are asked to be on hand.

## LONDON (Eng.) ZOO WILL GET BUFFALO

Orders have been received from the authorities at Ottawa by Mr. A. G. Smith, park superintendent, to prepare two fine specimens of male and female of buffalo from the herd in the national park here for shipping to England, where they will be placed on exhibition in the Zoological Garden in London.

Someone is going to get a dandy bag of flour for nothing. See the Armstrong advt. in this issue and take advantage at once of this free offer.

## DAYSLAND BOYS GET SHORT END HOCKEY TOURNEY

After many attempts and lots of arranging the management of the Wainwright Hockey team managed to pull off a couple of interesting games on the local ice on Friday and Saturday nights, when the home boys as champions of the G.T.P. and Daysland as champions of the C.P.R. met to decide the title of "top-notchers."

As a matter of fact teams went "all the way" to chalk up the win, and although the Wainwright boys got the long end of each match there was but little between the aggregations.

The Friday game ended in a 5-3 decision against the visitors, and on Saturday evening the locals registered another win by closing out at 5-4, four of these for the Wainwright boys being put in by Morris.

The following were the teams: Wainwright position: Long goal, Pierce r.d., Livingstone l.d., Morris r.w., Greer forward, Allard l.w., McKay Sub, Gaudich Sub.

## ADVOCATES LIVE BASEBALL TEAM FOR WAINWRIGHT

Judging from the enquiries that I have been making, there seems to be a question as to whether or not Wainwright can afford to put a baseball club in the field this season. In the writers' opinion it is not a question of can we afford it but a question of can we afford not to have a good ball club in the field this year. A good winning, ever contending ball team is one of the best advertisements that a wide-awake, progressive town could possibly have. While I am an old-timer in Wainwright I believe that seventy-five per cent of the advertising Wainwright has got has been by reason of its aggressive baseball and hockey clubs. It is a well-known fact that baseball receives more free advertising than all other games put together.

Show me a town of any size or consequence that never breaks in to the press columns with a winning ball or hockey team and I will show you a town that has lost its pep. Now we have our last year's team almost intact and the best ball park in this part of the country and are almost ready to put a winning team in the field right off the bat. All we need as a little pep and support. Are we going to admit that we have lost our pep? I think not. Only a short time ago I met a couple of strangers looking for business locations. I asked them why Wainwright, and they said that any town that had a winning team in baseball and hockey like Wainwright had, must be a good town to do business in. Think it over.

B. A. SEBALLER

## PRISONER JUMPS FROM MOVING TRAIN AND MEETS DEATH

Taking a flying leap from a moving G.T.P. passenger train near Ardrossan about 10.30 Friday morning, and was here taken to escape from custody, Steve Winnizuk, age 30, a Galician from Wainwright, sustained injuries which resulted in his death—Edmonton Journal.

Winnizuk was sentenced here last Thursday to thirty days for vagrancy and was here taken to Edmonton to serve his sentence. While the train was passing Ardrossan the prisoner rushed from the coach and onto the platform from which he leaped.

In jumping his head struck a box car on another track. Constable Russell who was in charge of the prisoner jumped from the train a moment later and walking back found Winnizuk lying dead beside the track with his head smashed in. Death is believed to have been practically instantaneous.

It should be mentioned that the deceased was only in town for a short time, being one of the many "floaters" who just now are going up and down the country. It is believed that he had relatives in the city at one time, though little is known of these.

Coroner Dr. Bradshaw, of Edmonton, was soon at the scene of the occurrence, and the body was removed to the undertaking parlors of Howard and McBride.

**MUST PAY LICENSES  
ON DISUSED CARS**

The auto license department of the Manitoba provincial government has ruled that regardless whether the owner of an automobile intends to operate his car or not he must purchase a license. Aged and infirm: Fords which have not known the smell of gasoline for many a year, decrepit gasoline wagons of by gone days, which have slowly sunk to the hulk in the backyard or have stood in the barn as a mammoth for the kids, again are to come into their own.

As C. Emmett, secretary of the Manitoba Motor League, announced his organization would undertake to assist in defending any auto owner, who is prosecuted under this ruling.

## Larger Business

If the business of any retailer in this community is to grow bigger in the years to come, it will not be a matter of accident or due to an increase of population only—it will be the result of intelligence added to energy, plus ADVERTISING.

Wherever you find a big, flourishing business you will find behind it a strong, pushing man of indomitable spirit, driven by the power of these 3 words—"I can and I will." This man advertises—he MUST deliver his message to those with ears to hear. Multiplied customers and larger turnovers are absolutely essential to his progress.

### A WORD TO THE PUBLIC

Help on the business of those who show themselves eager to have your custom—who invite it and prize it enough to ask for it. Shop where you receive the best service, values, and goods. Reward with your favor those who solicit your favor by messages addressed to you each week in our advertising columns.

## JUDICIAL SALE OF FARM PROPERTY

Pursuant to the Order of His Honor, Judge Taylor there will be offered for sale by public auction, with the approbation of a Judge or Master in Chambers, by John William Stuart, at the Post Office at the Village of Edgerton in the Province of Alberta, on **THURSDAY the 6th day of APRIL A.D. 1922**, at the hour of **TWO O'CLOCK** in the afternoon.

The South West quarter of Section Six (6) in Township forty-seven (47) Range three (3) West of the fourth Meridian, in the Province of Alberta, containing 1/4 acre more or less, according to Dominion Government survey, subject to the reservations contained in the original grant from the Crown and in the existing Certificate of Title to the said lands.

The Vendor is informed that the lands are good farm lands situated within miles North of the Village of Edgerton in the Province of Alberta, on the Grand Trunk Pacific Railway.

The terms of payment are ten per cent of the purchase price to be paid to the Sheriff or his deputy at the time of sale and the balance within sixty days thereafter without interest.

In all other particulars, the terms and conditions of sale will be the standing conditions of the Court as approved by a Judge.

Further particulars may be had from Messrs Fieldhouse & Hunter, Barristers at Wainwright, Alberta.

Dated this 8th day of March A.D. 1922.

Approved: **R.P. WALLACE**  
H.C.T. Clerk of Court.  
L.J.S.C.

**REPORTS ON GOVT.  
STATION ON WHITE  
SWEET CLOVER**

(Melilotus Alberta.)  
If pastured when the plants are young and tender, it is good for horses, cattle, sheep and hogs.

It makes good hay if cut before the flower buds form, and when properly cured.

Sweet Clover is not needed for hay where alfalfa, common red and alsike do well.

Good silage can be made from sweet clover. Sweet clover is one of the best soil-restoring plants.

It is one of the best drought resistant plants on account of its deep root system.

For loosening up a hard sub-soil, it has no equal; it makes a deeper reservoir for moisture.

Under conditions where alfalfa and other clovers fail, sweet clover will usually grow.

If allowed to grow in other crops, sweet clover is a nuisance. In the rotation, sweet clover should be followed by a cultivated crop or the land should be summer-fallowed.

On several Illustration Stations, white sweet clover has been grown for hay, pasture, seed and silage.

Soil and Climate—White sweet clover will grow in almost any part of Canada and can be made grow on practically any kind of soil.

Essentials to Success—Sow scarified seed.

Inoculate the seed just before sowing. Sow on soil well supplied with lime. Sow on a firm well prepared seed bed.

**Scarified Seed.**  
Germination tests show it is advisable to scarify the seed. Sweet clover, threshed with the ordinary grain separator, naturally leaves a considerable amount of seed unthruled. Germination tests show that in ten days unthruled seed germinated only 22% hulled seed 37%, and scarified seed 76%.

When sweet clover is threshed with a regular clover huller, and afterwards put through a scarifying machine, it will greatly assist in getting higher and more uniform germination.

In some sections certain soils have the required bacteria present. These legume bacteria grow on the roots of the plants where they produce little nodules singly or in clusters. These bacteria have the power of using the free nitrogen of the atmosphere, which is made available for plants.

If a field to be sown, has not grown a crop of sweet clover within a short time, it is a decided advantage to apply the bacteria to the seed. The proper kind of bacteria should be applied according to the directions, accompanying the bottle, and is then applied to the seed in such a manner that all may be moistened, though not soaked.

The seed should be sown the same day if possible, or as soon as sufficiently dry to pass through the seeder. Drying may be facilitated by adding dry sifted earth, but the seed should never be dried in the sun.

Soil on which sweet clover has been successfully grown may be applied to the field intended to be sown, at the rate of four to five hundred pounds per acre.

One of the most urgent requirements in the soil, is the presence of lime. Most Prairie soils are well supplied and do not require additional lime. Sour acid soils seldom give good crops, even though the stand may be uniform at first. The plants will not thrive and light crops may be expected. When soil is in this condition, an application of fine ground limestone will in most cases insure good results.

If the soil is deficient in humus, apply a light top-dressing of stable manure, immediately before or after seeding.

White sweet clover does best when sown following a cultivated crop or on summerfallowed land, and may be sown with a nurse crop of sown alone.

When a field has been worked with a cultivated crop, and kept sufficiently clean, or summerfallowed, it is not necessary to plough again in the autumn, where the rainfall is abundant, naturally be firm. In sections where the rainfall is light and the furrows slice liable to be loose, rolling or packing is necessary as sweet clover does best on a firm seed-bed, with a shallow fine surface.

The ease with which sweet clover appears to establish itself in waste places and along roadsides has led to the mistaken belief that it is easy to get a good catch. Unless the necessary precautions are taken, as previously mentioned, it will be found more difficult to get a good stand of sweet clover than any of the other clover. Sweet clover usually contains a large percentage of hard coated seed which does not germinate the first season, and will probably grow the second or third year. This is an undesirable feature.

Sow scarified, inoculated seed at the rate of fifteen to twenty pounds per acre. Cover the seed lightly, as deep seeding retards germination and should be avoided.

One of the cheapest and quickest ways to prove soil, is with sweet clover.

Its ability to thrive on soils lacking in humus, or badly run down farms, makes it especially adapted for this purpose.

The effect of the large deep roots is opening up the subsoil and providing better drainage in moist climates, and a deeper reservoir for moisture, in dry sections, is quite noticeable. The roots are often found one quarter of an inch in diameter at a depth of two to three feet. When they decay, the holes are left partly filled.

WAINWRIGHT, ALBERTA, MARCH 29th, 1922

### ARE BONDS STILL CHEAP?

Before the outbreak of the war in Europe prime investment bonds were selling on a basis to yield on an average of from four and one half to five per cent. Those are the years we want to refer to as normal and as the tendency of all things is always to work from fluctuating extremes back to normal, isn't it reasonable to suppose that bonds will follow the same course? In other words, "we of the present generation may never be able to buy bonds on such favorable terms as has been possible during the past two or three years, hence we may look back to the early part of 1922 and realize that bonds were still cheap at that time," writes Paul Tomlinson in McClures.

The comparatively small number of new bond issues put out in 1921 was due in large measure to the high cost of borrowing money. Money was expensive because it was scarce. The policy of deflation put into operation by the banks was very effective and not only cash but credit was exceedingly difficult to obtain. Banking reserves were low and this always means a curtailment of credit. Funds for investment were not so plentiful as had been the case previously. This was due of course to deflation, curtailed credit and the generally depressed state of business. Securities had to be unusually attractive in order to attract purchasers. Investors were very particular about what they bought. The days when a promoter of almost any kind of a wild-cat corporation could dispose of its stock to a public eager to listen to any rose-colored story of sudden profits had passed. High-grade securities on attractive terms were the only kind that could be successfully marketed.

All of this may have helped to cause a period of poor business and it was a very painful operation for many people. But it provided a rather thorough house cleaning and as usual the results were beneficial. Money is the food that nourishes business and with the nourishment removed all business grew a trifle lean and the weakest businesses passed away in many instances. Nature's law of the survival of the fittest, that is all. Meanwhile such occasions always provide opportunities for those in a position to seize them and able to see them. A period of tight money and high interest rates appeared and people with funds to invest profited handsomely.

Money is now easier than it was. Banking reserves are around the highest point they have reached in some time, business shows unmistakable signs of reviving and more and more money is available for and is seeking investment. As the funds for purchasing increase the demand is bound to be greater and the seller can get higher prices for what he has to sell. This is merely the law of supply and demand at work, a law that always functions, always has functioned and always will.

If the demand keeps on increasing the days of abnormally low prices are numbered. To be convinced that this is so it is only necessary to compare the present prices of a few high grade bonds with what they were a year ago. These figures will tell more eloquently than any words can do just what has taken place in the bond market in the past twelve months. Only last summer the largest bond issue ever put out by private corporations in this country was sold. There were many doubts expressed as to its probable success and many people did not hesitate to predict its failure. These bonds today are selling at an advance of ten points over their original price which means \$100 profit on every thousand dollar bond and an appreciation of \$24,000,000 in the market value of the issue as a whole. Correspondingly, the yield on these bonds has decreased from about six and two-thirds per cent to barely six. An who can say it will not go down still further? Prices have been going steadily up and yields consistently down and the best banking opinion is that the end is not yet.

All of which means to say that it looks as if many bonds are still cheap at present quotations. And in our judgment bonds are the best investment that are to be had. Well selected bonds combine to an unusual degree the three requirements of high grade investments—safety of principal, steady income and ready marketability. Nothing in life is sure, and no investment in the world is absolutely safe, but high grade bonds come closer to those requirements than anything we know. This being the case, the question arises whether or not the present is a favorable time for the purchase of bonds. Ask your banker what he thinks about this. Ask him if he thinks the best bonds are going to be cheaper a year from now than at present. Ask him if he thinks that in spite of the upward swing of bond prices they are still cheap. If his answers are in the affirmative, ask him to suggest the names of several which are suitable investments for you. And according to the opinion of most of the investment bankers, now is the time to act.

There is little doubt that, for our readers who are living in the town of Wainwright, and even those of the tributary territory, the very best possible investment in the shape of Municipal Bonds is the issue of Special Electric Light Debentures and these we recommend for the consideration of the small investor.

### NOTICE RE

## CEMETERY LOTS

Notice is hereby given that after this date, all applications for Grave Plots (to all persons not already in possession of same) in the Wainwright Cemetery, must be made at the office of the undersigned.

For the purpose of facilitating the establishment of a Cemetery Register, persons now holding plots in which interment has already been made, will upon calling at my office be furnished with the list of prices of said plots according to a schedule as approved by the Council; and, upon such persons giving the necessary information, proper registry made as to location.

Dated at Wainwright this 22nd day of March, A.D. 1922.

BY ORDER

H. Y. PAWLING  
Sec.-Treas.

(Continued from Page Four)  
filled with a fibrous substance; most soils are benefited by the addition of humus and nitrogen. The roots add vegetable matter to the layers of soil much below the usual depth of ploughing, while those in the surface soil, together with the stubble and stems when the crop is ploughed under, add more humus than possibly any other crop.

One of the best plans to get sweet clover started on sandy or very thin soils, is to transplant one year old plants in the Spring. One plant every two feet in rows, wide enough apart to cultivate between them until the sweet clover gets well established. The area should not be pastured, the sweet clover being allowed its full growth to re-seed itself, and to form a mulch on the surface.

Sweet clover makes good pasture for cattle, horses, sheep and hogs.

As a rule, live stock have to acquire a taste for it. The best way to get them accustomed to the flavor is to pasture them upon the clover the first thing in the Spring before any other green feed is available, and then turn them to a field where they can get no other kind of food. It will not be long before they will eat the clover readily. A sufficient number of animals should be kept on the field to keep down the growth. As all live stock there will be fresh tender shoots for grazing purposes. Newly seeded clover will make pasture after it has a growth of ten to twelve inches, and can be pastured, unlike other clovers for the remainder of the first season.

The second season, sweet clover makes an early rapid growth and will provide pasture until the new seeding is available. The stock can then be transferred to the new fields or other pastures and the old field left for hay or for a seed crop, or may be pastured alternately with the newly seeded field. Care must be taken not to allow any plants to ripen and shed their seed on the field or sweet clover will be growing in future crops where it is not wanted.

When sweet clover is sown alone on fertile soil and is well supplied with lime, it is possible to secure a good crop of hay the first season. Should weeds appear with the young plants, it is a good practice to run the mower over the field with the cutting-bar raised, cutting the tops of the weeds and clover. This will thicken up the plants and rapid growth should follow. The hay crop may be cut when the growth gets twenty to thirty inches high. It is not necessary to leave more than an ordinary stubble when cutting the hay crop in the fall of the year of seeding or the last crop of the second year.

The proper time to cut the first crop for hay the second season will vary in different localities depending on the fertility of the soil, and rainfall. In no instance should the plants be permitted to sow flower buds or the stems become woody. After this stage the leaves fall off and a very poor quality of hay results.

It is, important when cutting to cut the plants high enough from the ground to leave on the stubble a sufficient number of buds and young branches to produce a second crop of the second year crop.

The curing process is similar but more difficult than other clovers, on account of its heavy succulent stem.

Water, pure and cold is one of the best remedies for indigestion. Tigers are said to suffer more from scabiness than any other animal.

The chief drawback to smoking for women is stated to be the effect it has on the voice and throat.

## Believed That Coalition Government In Britain Is Nearing The End

London.—A statement, apparently inspired, has been issued denying that Premier Lloyd George intends to resign in a fortnight hence. It adds that he intends to stay at Cricketh, Wales, another ten days or a fortnight, and has definitely decided to go to Canada, and states further that on his return to London he "will seriously tackle the home political situation."

The fact that it should appear necessary to issue such a statement is commented upon as indicating the extreme urgency of the crisis, while the delay in filling Edwin S. Montagu's post as secretary for India is generally considered proof of the difficulties under which the Coalition is laboring. There is hardly a single newspaper now that does not take it for granted that the Coalition Government is nearing an end and that the next ministry will be a purely Conservative one. The Prime Minister has arranged to hold a weekend political party at Cricketh when he will consult with his principal colleagues.

The result of the Cambridge election affords little encouragement to the Government. Cambridge might at any ordinary time have been regarded as a safe Tory seat, but instead of a Unionist majority of nearly 8,000 votes, such as was given at the general elections, the new member was elected on a minority vote, as the combined votes of the Labor and Liberal candidates exceeded the Unionist vote, while the Labor party almost doubled its general election vote.

Addressing a political gathering in London, the Earl of Derby denied that he had declined Premier's offer of the Indian portfolio because he thought the Coalition ship was sinking. His reason for declining was that he believed he could be of more service to his party and country outside instead of inside of the Government.

## ACTION BY AIR FORCES MIGHT BE THE GREATEST DANGER TO BRITAIN

London.—A question much discussed lately—to what extent developments in aviation may render naval warfare more obsolete—was raised in the House of Commons in the course of a debate on the naval estimates which were introduced. Austen Chamberlain, lord of the privy seal, outlined the present policy of the Government on the question. Mr. Chamberlain said he could imagine circumstances which might soon lead the world to believe that limitation of battleships or armament would be of little use unless similar limitations were placed on aircraft. Therefore, he could only declare the Government's policy as stands at present.

Believing as the Government did, that the air force was an immense potentiality, quite distinct from its duties as an adjunct to the naval and military services, and convinced that in the future the greatest danger to Great Britain might well be action by air forces, the Government considered it would be a retrograde step to abolish the air ministry and re-absorb the air force into the admiralty and the war office.

Mr. Chamberlain announced that the standing committee of the commission on Imperial defense, after long and careful inquiry, had arrived at the following conclusions:

First.—That the air force shall be autonomous in matters of administration and education.

Second.—In case of defense against air raids, the army and navy must play a secondary role.

Third.—In case of military or naval operations the air force must be in strict subordination to the general administration and education.

Fourth.—In other cases, such as the protection of commerce and an attack on enemy harbors and inland towns the relations between the air force and the other services shall be regarded as a matter of cooperation.

Mr. Chamberlain added that the Government had decided to appoint a committee to advise further how to secure the utmost efficiency in their air service.

## Arrest of Gandhi Causes Grave Concern

Durban Native Beliefs He Helped Preserve Peace in India

Durban.—The Indian Congress of Natal in protest against arrest in India of Gandhi, the civil disobedience leader, attempted to precipitate a general strike in Natal Indians. The attempt, however, has proved only partially successful. The East Indians here in Durban adopted a resolution recording their grave concern over the arrest of Gandhi, and expressing belief he had been largely instrumental in preserving peace in India.

Zanzibar, Island of Zanzibar.—The East Indians here have declared a one day hartal in protest against the arrest of Gandhi, no disturbances marked the observance of the hartal.

Jewish Deputy Ruler of London

Toronto.—A London cable says: "The position of deputy ruler of London was conferred upon a young Jewish woman, when Miss Adler, daughter of the late Chief Rabbi Herman Adler, was appointed deputy ruler of the London County Council. She is the first woman who has ever held this post."

## Gouin Says Views On Tariff Have Not Changed In Twenty Years

Ottawa.—It was an eagerly expected and again a crowded House which heard Mr. Lester B. Pearson, minister of justice. No member of the Liberal administration has aroused more interest than the former premier of Quebec. He has already been attacked by the leaders alike of the official opposition and the Progressives.

"Mr. Meighen," Sir Lester himself observed in the House, "has taken pleasure, particular pleasure, in designating me the 'master of the administration.'"

The Liberal party, Sir Lester sharply added, "has one chief only. That chief is the Prime Minister of Canada."

Debate on the address had been following a torpid course. But, immediately Sir Lester arose, galleries and House filled rapidly. On the speaker's left, interest in the speech was especially keen. Progressive members, in particular, closely followed every word. There were Liberal cheers again and again during the speech and, as Sir Lester stressed the intention of the Government to

## JERSEY OBJECTS TO SUMMER TIME ACT

ISLAND RAISES ROW OVER ACTION OF BRITISH PARLIAMENT

London.—The Jersey States legislative assembly is gently kicking up a dust over a small constitutional difference between the Imperial Parliament regarding the summer time act. The assembly objects to the application of the measure to the island. Sir Hon. Edward Short, secretary of state for home affairs, has written pointing out that there can be no question of the right of the Imperial Parliament to legislate for the British Isles as a whole, in cases considered desirable.

The Jersey Parliament in referring the matter to a special committee, stated that the islanders do not want the right to legislate for itself subject to the approval of His Majesty in council.

## "Ghost" Run to Earth

Mystery of Haunted House in Nova Scotia Is Solved

Halifax.—The fires were produced by the physical means of the hands of the girl of the family (Mary Ellen), as shown by marks left in the building. She was not, however, morally culpable owing to having been in an altered state of consciousness. There is the added possibility, supported by a body of evidence, in other quarters, that this altered state was brought about by a discarnate intelligence. This is a theoretical possibility, whereas the external facts are certain. The experiences of Harold Whidden (Halifax newspaperman), sent to investigate the story of the "ghosts", and P. O. Carroll (Halifax private detective), were probably of a super-normal character, which does not necessarily imply that the super-normal cause was spiritistic. It may have been owing to a psychological cause which is perfectly natural though as yet imperfectly normal."

Dr. Walter Franklin Prince, director of the American Society of Psychological Research, so summed up the results of his investigation into the fires and other mysterious happenings which drove Alex. MacDonald and his family from their home at Caledonia Mills, Antigonish County, during the winter.

## Whiskey In Cars With Race Horses

Trainer Declares Liquor Needed for Buffalo, N.Y.—Race horses en route from Waterloo, Ont., to Maryland, were seized by Federal officials when several cases of whiskey were found in the cars in which the horses were being shipped. The horses are being shipped to Maryland, who also owns a distillery at Waterloo, Ont.

William Bringle, trainer, was arrested on a charge of unlawfully importing liquor. He was released in \$1,000 bond for a later hearing. At his arraignment Bringle told the Federal commissioner that it was necessary to give race horses whiskey as a part of their training.

## Manitoba Election Predicted in June

Polling Probably Deferred Until Seeding Is Finished

Winnipeg.—A provincial election in June is the prediction of political observers, following the defeat of the Laurier government in the Legislature. The election could not be brought on in less than seven weeks, it was stated by Frederick Axford, clerk of the executive council, and it is held to be probable that the active campaign and the polling will be deferred until seeding is completed in the province.

Sir H. Samuel Improving

Jerusalem.—The condition of Sir Herbert Samuel, British high commissioner for Palestine, has greatly improved, the bulletin from Government House states. The communication adds that the High Commissioner is out of danger.

## Pain In Her Arm Is Now All Gone

MRS. STANTON DODD'S KIDNEY PILLS

Woodstock Lady whose Rheumatism has Vanished tells why She Believes In Dodd's Kidney Pills

Woodstock, Ont.—(Special).—Mrs. John Stanton Dodd writes: "I have never been free of telling of the benefit she received from the use of Dodd's Kidney Pills."

"About four years ago I had rheumatism in my left arm," Mrs. Stanton writes. "So painful I couldn't dress myself."

"I read about Dodd's Kidney Pills and what they had done for others, so I sent and got six boxes. They did me good right from the start. The pain in my arm went away. I have a peculiar fondness of lumbago and they help it too. They help my husband's head too."

Dodd's Kidney Pills are the best known and most reliable of kidney remedies. They treat the kidneys, sound kidneys strain all the uric acid, the cause of rheumatism, out of the blood.

"Ask your neighbors if Dodd's Kidney Pills don't make healthy kidney."

W. N. U. 1112

## WESTERN EDITORS

V. C. French, Editor of The Times, Wetaskiwin, Alta., and President of the Canadian Weekly Newspaper Association.

## RUSSIA WILL LEASE HER WHEAT LANDS

MONEY WILL BE USED FOR AGRICULTURAL IMPROVEMENTS

Moscow.—The Soviet Government soon will be ready to lease to foreign countries large Soviet estates in the Volga and Southeast Russia, on a concession basis.

M. Cereda, member of the Supreme Economic Council, who is charged with the task of raising 1,000,000,000 gold rubles, or \$250,000,000, for agricultural and road improvements, announced the plan in an interview with the official Russian press bureau.

M. Cereda said the leases will be designed to put much of the most valuable grain land in Russia temporarily in the hands of foreign capitalists.

## Saskatchewan Has No Good Roads Association

Is Only Province in Dominion Without

Prince Albert.—An anomaly exists in Saskatchewan in connection with the good roads movement, the Hon. Samuel Latta being president of the Dominion Good Roads Association, while this province is the only one without a provincial good roads association. This was emphasized at the discussion on good roads at a session of the Associated Boards of Trade of Saskatchewan, in annual convention here.

The need of appointing a permanent freight expert to represent Saskatchewan, until standard weights for bread, moving the censor board for motion picture films from Winnipeg to the province in view of the hardship the present arrangement imposes on theatre operators, renaming wheat grades, were among the important themes discussed at the meeting.

## Resents Interference Of Viceroy

Sir James Craig Threatens Resignation if Action Repeated

London.—A dispatch to the Central News from Belfast says Sir James Craig, replying to a question in the House of Commons, stated that the Londonderry prisoners had been deprived over the heads of the Ulster Government, and that if there were further interference with the courts by the viceroy, he would resign.

Belmont.—The Belfast Telegraph declared that the police murders were committed to deter the Royal Irish Constabulary from joining the Ulster forces. The newspaper charged that the campaign was specially directed against Roman Catholic members of the police, many of whom already had intimated their intention of serving the Northern Parliament.

The Telegraph reports a document found by Sergeant Clark, contained the names of 12 policemen, who had been marked for assassination and all of whom had expressed their willingness to re-enlist.

## Holding Up Seed Loans

Defeat of Manitoba Government Creates Awkward Situation

Winnipeg.—Applications for seed grain loans are being received in considerable numbers from rural municipalities by the Manitoba Government, whose members feel that following defeat of the administration they have lost authority to incur the financial obligations involved in meeting the situation.

Unless steps are taken immediately it is said that thousands of acres of land in Manitoba will not be seeded this year. The result of the inability of farmers to purchase seed.

## Thinks Farmers Will Win in Manitoba

Ottawa.—C. H. Burnell, president of the United Farmers of Manitoba, who is in Ottawa as a member of the delegation in regard to the re-establishment of the wheat board, informed the Canadian Press that he had no doubt that the United Farmers would control the next Manitoba Legislature.

Visit Mining Area

Prince Rupert, B.C.—Steel interests in the mining area in a party which is exploring the mining areas at Stewart and Anxox, B.C. C. L. Druy, general manager of Sanderson Brothers, Toronto, is representing the Sheffield people.

## EGYPT HAS BECOME INDEPENDENT STATE

"KING OF EGYPT" WILL BE SULTAN'S NEW TITLE

Cairo.—A receipt issued by the Sultan Ahmed Fud Pasha announced that Egypt had become an independent state and that the Sultan will assume the title of King of Egypt.

A Cairo dispatch to the London Times last week said the Sultan was expected to assume the title of King upon notification by the British Parliament of the decision to terminate the protectorate over Egypt. The new constitution with which Egypt will be provided, however, calls for renunciation by the Sultan of some of his prerogatives. The British Parliament has not yet passed an act affirming the protectorate.

London.—An Exchange Telegraph dispatch from Cairo says the declaration of Egypt's independence was followed by several demonstrations in Cairo the crowds smashing street lamps and uprooting trees. Egyptian cavalry was ordered out to restore order.

## Limit Reached In Armament Reduction

Britain Has "Scrapped to Bone" Says Lt.-Col. Amery

London.—Lt.-Col. Leopold Amery, parliamentary and financial secretary of the admiralty, in presenting the naval estimates for 1918 to the House of Commons, said the savings resulting from the Washington conference would amount to £15,200,000.

"We have reached the limit," he said. "Things have been scrapped to the bone. Only a further fall in prices or possibly other navies following up the Washington conference by a more advanced policy in the reduction of armaments can make possible additional economies in subsequent years."

Colonel Amery said Great Britain lived by her power to keep the sea highways open and free and would never surrender, even to her best friend. He said it had been agreed at Washington to accept equality with the United States and equality was not competition but co-operation for maintaining the world's peace. But even for purposes of such co-operation the United States could not afford to be less than equal.

## Ontario Government Has Surplus

Bill to Impose Tax on Betting at Horse Races

Toronto.—Hon. Peter Smith, provincial treasurer, made his budget speech in the Legislature and before crowded galleries announced a surplus on the year's operations of \$681,788.41; defended the increased expenditures of the Government during the past year and challenged the financial critics in the Opposition to show in what particular the annual cost of government could be reduced without the interests of the public suffering.

The treasurer made no announcement of any tax changes in his speech, although it was afterwards stated that a bill would be introduced to levy a tax on betting at horse races. It is understood that it will tax the receipts of the pari-mutuels at perhaps ten per cent, after the jockey club's percentage has been deducted. In this way all the winnings would be paid by the holders of winning tickets. There has also been a rumor that there would be an additional amusement tax, but it is now said to be practically certain that this is not intended.

## China's Trade Outlook Considered Serious

Business Conditions Paralyzed By Strike of Seamen

Victoria.—The Chinese depression is noticeable throughout the Orient, and in China, the outlook is serious, according to F. W. Peters, general superintendent of the Canadian Pacific Railway, British Columbia division, who reached here from Hong Kong by the Japan Express of Russia.

Business conditions in China were virtually paralyzed by the strike of Chinese seamen at Hong Kong, said Mr. Peters. The Chinese guilds have control, and include all branches of Chinese labor. In Japan, Mr. Peters found competition keen. Much shipping, however, is tied up, owing to lack of cargoes.

## Will Revive Demand

Victoria.—Now that the province of Quebec has been given control of its fisheries resources, British Columbia's long standing agitation for the same concession is likely to be revived, local cannery operators say.

## Prohibit Bull Fighting

Frankfurt, Germany.—Bull fighting, Spanish style, has been ruled out by the police authorities here. The police declare that "there is no necessity for such an exhibition."

## Woman Hunter Drowned

Chatham, Ont.—Losing her balance while setting a muskrat trap, Mrs. Joseph Sears, 70, a veteran muskrat hunter of several years' standing, was drowned in three feet of water.

## Proposed Plans To Increase British Army By Further Enlistments

### Favors Wheat Board

Moore Jaw Member Deals With Problems of Grain Marketing

Ottawa.—Debate on the address was participated in by Hon. Sir James Laming Worthington Evans, were outlined by him in introducing the army estimates in the House of Commons. He said the proposed personnel of 152,000, including the troops on the establishment in India, showed a reduction of 20,000, compared with the number in 1914, when there was being held the army a reserve of 146,000 men, and 55,000 militia. The reserve today, he said, was 45,000 militia, but there was a large potential reserve of war veterans.

Sir Laming said he proposed to strengthen the reserve by enlisting men and militia a fresh start with the militia at a cost of £1,000,000. Dealing with the risks incurred in consequence of the reduction, he said the army might be called on to reinforce the forces of the crown in India. In certain eventualities, reinforcements would have been imposed if the proposed future estimates might be required. Sir Laming hoped that a sound policy and wise administration would justify running whatever risks were involved in reducing the army.

## Clubbed to Death

Rich Saskatchewan Farmer is Murdered in Chicago

Chicago.—A Canadian livestock place and a St. Louis tailor's label police a step nearer to the solution of the most mysterious murder in recent years when Capt. Patrick Kelleher, of the Maxwell Street Station, learned the identity of the man found dead in a barn at 2451 South Ashland Avenue, February 20. A brother identified the body as that of James Weland, 34 years old, a wealthy farmer of Liberty, Sask. The man had been clubbed to death. There was no clue to the murder. Every police department in Canada was notified.

James Weland, a bachelor, and worth \$200,000, left his home in November for Hot Springs, Arkansas. He had communicated with his brother, Charles, owner of an arable farm at frequent intervals. He learned Charles had come to St. Louis then gone to Chicago early in February.

Through the police Charles Weland learned of the unidentified body in Chicago. He arrived recently and the search was over.

Now that I know who the man was and where he came from, I can run down his murderers," said Capt. Kelleher. "He was undoubtedly murdered for his money."

## Wheat Still On Western Farms

Twenty-Four Million Bushels Yet to Be Shipped

Winnipeg.—The total farmers' deliveries of 1921 wheat crop up to March 10 is estimated at not less than 211,000,000 bushels, according to a report issued by the W. Sanford Evans statistical report.

The Dominion Bureau of Statistics in its final estimate of the western wheat crop placed the figure at 230,098,000 bushels. It is estimated that 35,000,000 bushels will be required for seed and that 7,000,000 bushels of low grade stuff will go into feed and stock lots. This leaves a balance of about 21,000,000 bushels still on the western farms to come out.

On February 28 there had been exported from Canada in wheat and flour 121,369,000 bushels. The domestic consumption is now placed at about 45,000,000 bushels.

## China's Trade Outlook Considered Serious

Business Conditions Paralyzed By Strike of Seamen

Victoria.—The Chinese depression is noticeable throughout the Orient, and in China, the outlook is serious, according to F. W. Peters, general superintendent of the Canadian Pacific Railway, British Columbia division, who reached here from Hong Kong by the Japan Express of Russia.

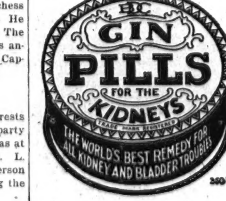

Business conditions in China were virtually paralyzed by the strike of Chinese seamen at Hong Kong, said Mr. Peters. The Chinese guilds have control, and include all branches of Chinese labor. In Japan, Mr. Peters found competition keen. Much shipping, however, is tied up, owing to lack of cargoes.

## British Delegates to Genoa

London.—Prime Minister Lloyd George and Marguerite Curzon, secretary for foreign affairs, will be among Great Britain's delegates to the Genoa economic conference, it was announced in the House of Commons by Austen Chamberlain, the Government leader.

**LOCAL INTEREST HAPPENINGS**

We are glad to know that Miss M. Turner who has had an attack of pneumonia is now progressing nicely.

Good prices were realized at the auction sale which J. W. Stuart conducted for Mr. Connelly last week. Prices are slowly but surely getting better for farm effects.

Mr. C. W. Turner, has now moved his family into the old Ward house on Main street and has got nicely settled.

From what we learn Mr. Alf Cook, who for many moons has had charge of the pumphouse here in the yards will be transferring to the pumphouse at Heath at the beginning of the week.

Mrs. Murray Pawling is spending a few days in town from her home in the city.

This week sees more removals around town. Mr. J. Barker has moved from Second avenue to the Armstrong block, while Mr. J. Clifford is now occupying the house vacated by Mr. Barker.

Owing to a freight wreck at Kinsella on Saturday last No. 4 was several hours late in arriving in town. No one was hurt, however.

We are sorry to learn that Miss Gertrude Olsen, is suffering from an attack of acute pneumonia and hope for her speedy recovery.

From what we learn, the Dramatic Club are working hard on a play which is to be produced in a few weeks' time. Incidentally, the play has been written by Mr. R. G. Dunsmore, of town, who will be responsible for the production.

Mrs. Bruce Nicholls who has been in the city undergoing specialist eye treatment is expected home again this week end.

Steve Bowerman, is announcing a time sale of good horses ready for Spring work at the Alberta barn on Saturday April 1st.

**THE SOLDIER SETTLEMENT BOARD OF CANADA**

Announcement in another column shows that S. Bowerman will conduct an auction sale on Saturday next at the Alberta barn on Fourth avenue.

In answer to information of the illness of her sister at Saskatoon, Mrs. A. Hoare left for that city on Sunday's train. She will probably be away from town for several weeks.

Look after your live stock there's money in it. Get them into condition by using regularly International Stock Food from Wainwright Pharmacy.

We are glad to know that Mr. E. Denoncourt, who was taken to a hospital in the city in January with a broken leg is progressing nicely now. His two daughters, Mrs. Lee O'Reilly and Mrs. W. S. Goulet spent a couple of days last week paying him a visit.

Constable Russell, A.P.P. who was taken to a hospital in Edmonton after jumping from the train after a prisoner is getting along pretty well.

From what we hear, wedding bells will be ringing for two or three happy couples in town in the very near future!

The members of the C.G.I.T. class under Miss H. Tory are arranging for big doings in the Oddfellows' Hall on the evening of Friday March 31st. Watch for further announcement.

**FREE**—One bottle of Genuine Yeast Vitamine Tablets with the purchase of every bottle of Nuxated Iron at Gerow's Drug store.

Quite a large gathering met at the home of Mr. and Mrs. Stanley Cooper on Friday evening last by way of a surprise party. Music and dancing rounded out a very enjoyable evening (and later).

The Women's Institute are announcing a Novelty Dance to be given in the theatre on Monday, April 3rd. This will be something new. Watch for further announcements.

The date for Wainwright's Big Fair—August 2nd next.

After spending the winter in Edmonton and the north land, Harry Humphreys has returned and is now back on his farm preparing for Spring work.

FRIDAY, MARCH 31st

to raise funds for the Local Camp

Admission 35¢; Children 15¢

Get your horses in condition for the Spring work by using International Stock Food. Obtainable at Wainwright Pharmacy.

It will pay you to read the Advt. Practically all our merchants have "changed copy" this week in keeping with the Spring season.

Breeding contract books are for sale at The Star office.

We are indeed pleased to report that Mrs. J. Bryant is now much better after her case of influenza from which she was very sick last week.

Farmers—Don't forget that "It is better to be safe than sorry!" Read the Gerow drug store advt. and get after the gopher pest real early. Your seed will be safer if treated.

Auctioneer Bowerman had a real good sale for Mr. Asquin last week when fair average prices ruled.

We sympathise with Mr. R. Greer, who during the course of the hockey match on Friday, while playing center forward, managed to stop the puck with his forehead. He is around again with a couple of stitches in the wound.

We understand that there are several cases of measles among the children in town and the necessary quarantine cards are being posted.

We will print your Butter Papers at The Star office at T. Eaton prices. Get your name and address on your product. Advertising pays!

Sure harbingers of Spring! Both a crow and a gopher were seen out last week.
